“Dirt. That's what we started with. Just a bunch of dirt.

It wasn't until we met with Rocky Mountain Ponds and Waterfall that we started to understand the potential our dirt had.

We were amazed at the transformation that happened...we were able to witness first-hand their hard work, skill and dedication.

The project was finished on schedule, on budget and far exceeded our expectations.”

“We've been told by our neighbors that our landscaping is the best in the community.”

“Dusty and his team have enlarged our living space by giving us an outdoor paradise we can call our own.” - Beth and Jim

A note from the owner...

Words alone can't express our passion for creating exquisite, natural mountain landscapes for our Clients. For over ten years, we have taken great pride in creating beautiful "paradise retreats out of nothing but rocks and dirt." I am proud of what RMPW has accomplished, the Client relationships we have formed and the lives we've enhanced with wonderful outdoor living spaces.

“Two RMPW pond technicians proved to be extremely capable, hard working, and knowledgeable...

...they provided a tremendous amount point-of-need information on fish, pond and plant maintenance.

We thank RMPW every time we look out a window and see an exquisite, problem free pond and waterfall.”
